## Discover Who You Can Be

### Empowered by the Spirit

challenges all to learn about the Catholic Tradition and wisdom; to act out of that knowledge to become active members of society who make life better for others and themselves.

In serving the Church. Campus Newman Centers, University Parishes and Campus Ministry Offices invite everyone to become a member of the campus Catholic community and join in its worship and celebrations.

Every campus ministry by its very nature is spiritually based with roots in prayer, sacrament, celebration and a community of believers.

The tradition of gathering the people, breaking the bread and sharing the stories is older than Christianity and serves today as one form of celebration that expresses common beliefs.

Retreats, Bible study, pastoral counseling and spiritual direction that explore faith and meaning are some of the many ways to grow in faith and understanding.

## Spiritual

## Service

Catholic Social Teaching emphasize the responsibility toward people less fortunate, and the call to be of service to church, campus and community.

Being a lector, Eucharistic minister, tutor, volunteer in soup kitchens, collecting clothing are a few opportunities available on campus.

Off-campus opportunities including caring for the young, the elderly, and the poor.

Another is being good stewards for our natural, economic, and spiritual resources as a way of life.

Everyone needs friends and fellowship to during their college and university experience.

Personal and mutual understanding enable people to celebrate differences that unite people of God.

Campus ministry offers a variety of gatherings in which life-long friendships can begin.

Picnics, Movies with Meaning, Game Nights, Coffee and Conversation and of course Pizza are just a few ways of developing those friendships.
